Dear Colleague:

This is the 1978-79 edition of the Georgia State University Fact Book. It portrays a modern university bringing together students, faculty, academic programs, financial resources, and physical facilities in a dynamic and changing environment.

The entire University community is grateful for the support which the people of this State, their elected representatives, and the Board of Regents have provided to Georgia State University. The purpose of the University is to encourage and develop the great human resources in the State by providing enrichment opportunities for learning, living, and personal fulfillment. The University seeks to bring together theory and practice, academic excellence and relevance, and general and professional education while preserving the primacy of the individual always at the heart of its concerns. This publication presents a record of progress towards this goal in which all Georgians can take pride.

In a constantly changing environment there is a continuing need for current, reliable, and objective information about the many aspects of the University. The Fact Book provides a ready source of information to answer frequently asked questions about Georgia State University. Presenting a broad spectrum of information about the past and present, the Fact Book provides assistance for students, faculty, staff, alumni, and friends of the University.

I hope that you will find the Georgia State University Fact Book informative and useful, and I hope that it will enhance your understanding of the University.

Sincerely,

William M. Suttles
Executive Vice President
and Provost

WMS:lgw

PREFACE AND ACKNOWLEDGMENTS

This is the ninth annual issue of the Georgia State University Fact Book. It is designed to offer brief but pertinent information on a variety of subjects of interest to the university community and general public. There are obviously many other subjects and facts of special interest to many people which are not included in this publication. If more detailed information is needed on the material presented, the source on each page indicates the office or reference data used. Many of the reports referred to are available in the Pullen Library.

Your favorable reactions to past issues of the Fact Book are sincerely appreciated, and you are encouraged to give us your suggestions for improvement of future issues. Students, both individually and collectively, have used the Fact Book to gain more understanding about their institution. We are pleased, too, that many institutions throughout the nation have expressed an interest in this publication.

Our appreciation is extended to various offices which assisted us with the development of the information. The cooperation was excellent. We are especially appreciative of the contributions of Mr. Frank Drago, Cartographer of the Department of Geography (map reprints), Mr. Bill Biggers, Educational Media (graphic illustrations), and Mr. Leonard Hagerman, Publications and Printing (pictorial illustrations). The printing services of Mr. Rowland Kraps and his staff at the University of Georgia are sincerely appreciated.

The project was conducted as a service to the university. All institutional research staff members of the Office of Institutional Planning made contributions to this publication. Especially noteworthy individuals are Mary Roberts (editorial assistance) and Ellen Posey (computer maps). Chris Morris assisted with the typing.

General Information

PROFILE OF UNIVERSITY

- GEORGIA STATE UNIVERSITY, A MAJOR PUBLIC URBAN UNIVERSITY IN THE NATION, IS A NON-RESIDENTIAL STATE-SUPPORTED INSTITUTION -- A TRULY "URBAN UNIVERSITY"
- . . . THE UNIVERSITY SEES ITS ROLE AS MEETING THE NEED FOR A BROAD RANGE OF EDUCATIONAL OPPORTUNITIES IN THE LARGEST POPULATION CENTER IN THE STATE . . . SEEKS TO ASSIST INDIVIDUALS OF ALL AGES TO DISCOVER AND REALIZE THEIR OWN POTENTIALS -- TO BECOME A LEARNING PEOPLE RATHER THAN JUST LEARNED PEOPLE . . . (Excerpts from Statement of Purpose)
- THE UNIVERSITY IS WITHIN AN HOUR'S COMMUTING DISTANCE OF TWO MILLION CITIZENS IN THE GREATER ATLANTA AREA -- ONE-THIRD OF THE STATE'S POPULATION
- THE TOTAL FULL-TIME FACULTY NUMBERS 844 FOR FALL QUARTER. THREE-FOURTHS OF THE FULL-TIME TEACHERS HOLD THE DOCTORATE; 63 PERCENT ARE TENURED; THE AVERAGE AGE IS 42; AND THE AVERAGE LENGTH OF SERVICE IS 8 YEARS
- IN AN AVERAGE QUARTER OVER 2000 COURSES ARE SCHEDULED FROM 8 A.M. TO 10 P.M. -- PROVIDING ONE OF THE MOST FLEXIBLE ACADEMIC TIME SCHEDULES IN THE COUNTRY TAUGHT BY A FULL-TIME FACULTY
- DEGREES CONFERRED DURING FY-78 TOTALED 4,130
    - 105 DOCTORATES
    - 149 SPECIALISTS
    - 1,837 MASTERS
    - 1,826 BACHELORS
    - 213 ASSOCIATES
- THE SIX COLLEGES AND THE INSTITUTE OF GOVERNMENTAL ADMINISTRATION OFFER 42 DEGREE PROGRAMS WITH 183 AREAS OF CONCENTRATION
- DURING FY-78, 69,640 PERSONS PARTICIPATED IN 1,279 PUBLIC SERVICE PROGRAMS; IN ADDITION, SPEECHES WERE DELIVERED BY FACULTY AND STAFF MEMBERS TO APPROXIMATELY 295,000 PERSONS
- IN THE COURSE OF PURSUING ITS PRIMARY EDUCATIONAL AND CULTURAL AIMS, GEORGIA STATE UNIVERSITY PROVIDES THE ATLANTA COMMUNITY WITH A SUBSTANTIAL EXTRA DIVIDEND OF JOBS AND INCOME. THE ECONOMIC IMPACT WAS CALCULATED AT $118.1 MILLION IN FY-76; THE UNIVERSITY HELPED TO PROVIDE MORE THAN 6,000 GEORGIANS WITH EMPLOYMENT (Salley, 1976)

PROFILE OF STUDENTS

- ENROLLMENT FOR FALL QUARTER, 1978, IS 20,021 -- ACCOUNTING FOR ONE-TENTH OF ALL ENROLLEES AT ACCREDITED COLLEGES IN GEORGIA -- BOTH PUBLIC AND PRIVATE
- MOST GEORGIA STATE UNIVERSITY STUDENTS WORK WHILE PURSUING THEIR STUDIES (78 PERCENT); 53 PERCENT WORK FULL TIME AND 25 PERCENT PART TIME
- THE AVERAGE AGE OF UNDERGRADUATE AND GRADUATE STUDENTS IS 25 AND 31, RESPECTIVELY. THE AVERAGE AGE OF ALL STUDENTS IS 27
- WOMEN CONSTITUTE A SLIGHT MAJORITY -- ACCOUNTING FOR 55 PERCENT OF THE ENROLLEES
- THERE ARE 2,041 VETERANS IN ATTENDENCE
- SEVENTEEN PERCENT OF THE STUDENTS ARE MINORITIES
- GRADUATE STUDENTS MAKE UP ONE-THIRD OF THE STUDENT BODY
- RESIDENTS OF 72 FOREIGN COUNTRIES AND 47 STATES ARE ATTENDING THE UNIVERSITY AS REGULAR STUDENTS
- GEORGIANS COMPRISE 93 PERCENT OF THE TOTAL ENROLLMENT
- IN A RECENT SURVEY, 46 PERCENT OF THE STUDENTS ANSWERED THAT THEY LIVE IN THE ATLANTA AREA LARGELY BECAUSE OF THEIR ENROLLMENT IN GEORGIA STATE UNIVERSITY
- THE AVERAGE STUDENT SPENT $6,455 IN METROPOLITAN ATLANTA DURING 1976

STATEMENT OF PURPOSE OF THE UNIVERSITY

Georgia State University endeavors to promote the advancement of knowledge through excellence in teaching, research, and public service. The University sees its role as meeting the need for a broad range of educational opportunities in the largest population center in the State. Its location adds an operational dimension to the education of students by affording opportunities to participate in the vast social, artistic and scientific learning laboratory that characterizes modern society. In a climate of academic freedom, where creativity is encouraged, the University strives to serve individual students, other institutions of higher learning, social institutions and agencies, and society at large. The University thus endeavors to exercise direction and leadership by extending the boundaries of knowledge through research and scholarly activity, and by providing programs which embody excellence.

Georgia State University endeavors to develop in each student a respect for the dignity and worth of the individual; a desire and capacity for critical reasoning; an appreciation and understanding of scholarship and creativity in the arts, humanities, and sciences; the ability to communicate; and a continuing desire for knowledge. By offering undergraduate, graduate, and advanced professional programs as well as expanded credit and non-credit educational opportunities in the continuing learning experience, the University seeks to assist individuals of all ages to discover and realize their own potentialities--to become a learning people rather than just learned people. The institution thereby endeavors to provide initially and on a continuing basis the requisites for competence, personal fulfillment, and responsible leadership in business and the professions, in the sciences, in the creative and performing arts, in government and public service, and in education.

SOURCE: President (approved by the Board of Regents, November, 1976)

CAPSULE HISTORY OF THE UNIVERSITY

In 1913, the Georgia Tech Evening School of Commerce, under the direction of distinguished Georgia Tech staff member Wayne S. Kell, opened its doors with an enrollment of 47 students. From these meager beginnings, the school grew to what is now Georgia State University, the second largest institution of higher learning in Georgia.

Under directors John M. Watters in 1918, Fred B. Wenn in 1925, and finally Dr. George M. Sparks in 1928, the Georgia Tech Evening School of Commerce continued to grow until it became an independent college in the reorganized University System of Georgia in 1933.

The school remained independent for a number of years--through the Great Depression and World War II until 1947, when the Board of Regents determined that the institution's functions could be incorporated into the program of the University of Georgia. It continued to function under the direction of the University of Georgia with the title of the "Atlanta Division of the University of Georgia."

In 1955 it became evident that the institution had a destiny of its own. It was separated from the University of Georgia and renamed the "Georgia State College of Business Administration" with Dr. George Sparks as President.

Two years later Noah Langdale, Jr. took over as President on the retirement of Dr. Sparks. In 1961, the Board of Regents changed the name of the institution to Georgia State College. Under the leadership of President Langdale, new degrees and programs were added.

Finally, in 1969, in recognition of the academic achievements of the institution, and the services provided for both students and the community, the Board of Regents granted the college university status. Georgia State College became Georgia State University.

Georgia State University has continued to be innovative in developing new programs for students, faculty and citizens alike. The expanded, modern city-campus environment of the University today provides a unique setting in which to fulfill its threefold mission of teaching, service and research.

BOARD OF REGENTS OF THE UNIVERSITY SYSTEM OF GEORGIA

The Board of Regents of the University System of Georgia was created in the reorganization of the State government that took place in 1931 under the administration of the late Senator Richard B. Russell, who was at that time Governor. The Act establishing the Board of Regents became effective January 1, 1932. The Board is a public corporation and a constitutional body. It governs, controls, and manages all of the State's public institutions of higher education. The Board receives the appropriation from the State in a lump sum and makes internal allocations. The fifteen members of the Board of Regents are appointed by the Governor on a rotating basis to serve a seven-year term. In the history of the Board of Regents, six individuals have served as Chancellor, the chief administrative officer reporting to the Board. Dr. George L. Simpson, Jr., was appointed Chancelior in 1965. The current membership of the Board of Regents and the officers and staff are provided below.

REGENTS	DISTRICT	TERM
Rufus B. Coody	State-at-Large	1976-1983
Marie W. Dodd	State-at-Large	1978-1981

Degree Information

GEORGIA STATE UNIVERSITY
Degrees Offered

COLLEGE OF ALLIED HEALTH SCIENCES	
Associate of Science (1968)	Majors in Medical Laboratory Technicians, Mental Health, Nursing*, Pediatric Assistants, Respiratory Therapy
Bachelor of Science (1961)	Majors in Community Health Nutrition, Medical Technology, Mental Health, Nursing, Physical Therapy, Respiratory Therapy
Master of Science (1972)	Majors in Medical Technology, Nursing
COLLEGE OF ARTS AND SCIENCES	
Bachelor of Arts (1958)	Majors in Anthropology, Art, Classics, Economics, English, French, Geography, German, History, Journalism, Mathematics, Philosophy, Political Science, Psychology, Sociology, Spanish, Speech and Drama
Bachelor of Music (1959)	
Bachelor of Science (1957)	Majors in Biological Sciences, Chemistry, Geology, Mathematics, Physics, Psychology
Bachelor of Visual Arts (1966)	
Master of Arts (1962)	Majors in Art History, Economics, English, French, Geography, German, History, Mathematics, Philosophy, Political Science, Psychology, Sociology, Spanish
Master of Arts for Teachers (1962)	Majors in Biology, Chemistry, English, French, Geography, German, History, Mathematics, Physics, Political Science, Spanish
Master of Music (1970)	
Master of Science (1962)	Majors in Biology, Chemistry, Mathematics, Physics
Master of Visual Arts (1970)	Majors in Art Education, Ceramics, Drawing and Painting, Graphic Design, Sculpture
Doctor of Philosophy in English (1968)	
Doctor of Philosophy in History (1968)	
Doctor of Philosophy in Political Science (1973)	
Doctor of Philosophy in Psychology (1967)	
Doctor of Philosophy in Sociology (1976)	

* New students will not be admitted to this program during 1978-79.

COLLEGE OF BUSINESS ADMINISTRATION

Bachelor of Business Administration (1948)	Majors in Accounting, Actuarial Science, Economics, Finance, Health Administration, Information Systems, Insurance, Management, Marketing, Real Estate and Urban Affairs
Master of Actuarial Science (1963)	
Master of Business Administration (1958)	Majors in Accounting, Economics, Finance, Industrial Relations, Insurance and Risk Management, International Business, Management, Marketing, Real Estate and Urban Affairs
Master of Business Information Systems (1969)	
Master of Decision Sciences (1969)	
Master of Health Administration (1963)	
Master of Insurance (1967)	
Master of Professional Accountancy (1964)	
Master of Taxation (1978)	
Doctor of Philosophy in Business Administration (1967)	Fields in Accounting, Actuarial Science, Decision Sciences, Economic Theory and Analysis, Finance, Health Administration, Industrial Relations, Information Systems, Insurance and Risk Management, International Business, Land Economics and Urban Affairs, Management, Marketing and Distribution Management, Quantitative Methods and Analysis
Doctor of Philosophy in Economics (1965)	

COLLEGE OF EDUCATION

Associate of Arts (1964)	Major in Secretarial Science*
Bachelor of Science in Recreation (1974)	
Bachelor of Science in Education (1968)	Majors in Bookkeeping and Business Management, Comprehensive Business Education, Early Childhood Education, Elementary Education, Health Education, Physical Education, Secretarial Science and Office Administration, Secondary Education, Vocational and Career Development
Master of Business Education (1962)	
Master of Education (1966)	Majors in Educational Administration and Supervision, Counseling and Guidance, Early Childhood Education, Elementary Education, Educational Foundations, Physical Education, Reading Instruction, School Psychometry, Secondary Education, Special Education, Speech Pathology, Vocational and Career Development, Vocational Rehabilitation Counseling

* Program to be administered jointly by Colleges of General Studies and Education during 1978-79.

COLLEGE OF EDUCATION (Continued)	
Master of Library Media (1973)	
Specialist in Education (1962)	Majors in Educational Administration and Supervision, Business Education, Counseling, Early Childhood Education, Elementary Education, Library Media, Reading Instruction, School Psychology, Secondary Education, Special Education, Vocational and Career Development
Doctor of Philosophy in Educational Leadership (1970)	Fields in Business Education, Counseling, Curriculum and Instruction, Early Childhood Education, Educational Administration, Educational Foundations, Special Education, Vocational and Career Development
COLLEGE OF GENERAL STUDIES	
Associate of Arts (1964)	Majors in General Studies, Secretarial Science*
Associate of Science (1973)	Majors in Aviation Administration, Commercial Music-Recording; Hotel, Restaurant, and Travel Administration; Labor Studies
COLLEGE OF URBAN LIFE	
Associate of Arts in Criminal Justice (1967)	
Associate of Science in Urban Life (1967)	
Bachelor of Science in Urban Life (1967)	Concentrations in Communications, Community Development, Criminal Justice, Human Resources, Social Welfare, Urban Government and Administration, Urban Studies
Master of Science in Urban Life (1969)	Concentrations in Community Development, Criminal Justice, Human Resources, Urban Government and Administration, Urban Studies
INSTITUTE OF GOVERNMENTAL ADMINISTRATION	
Master of Governmental Administration (1972)	

* Program to be administered jointly by Colleges of General Studies and Education during 1978-79.

NOTE: There are 42 degrees with 183 concentrations or majors offered by the six Colleges and Institute of Governmental Administration. Effective dates of degrees are indicated in parentheses.

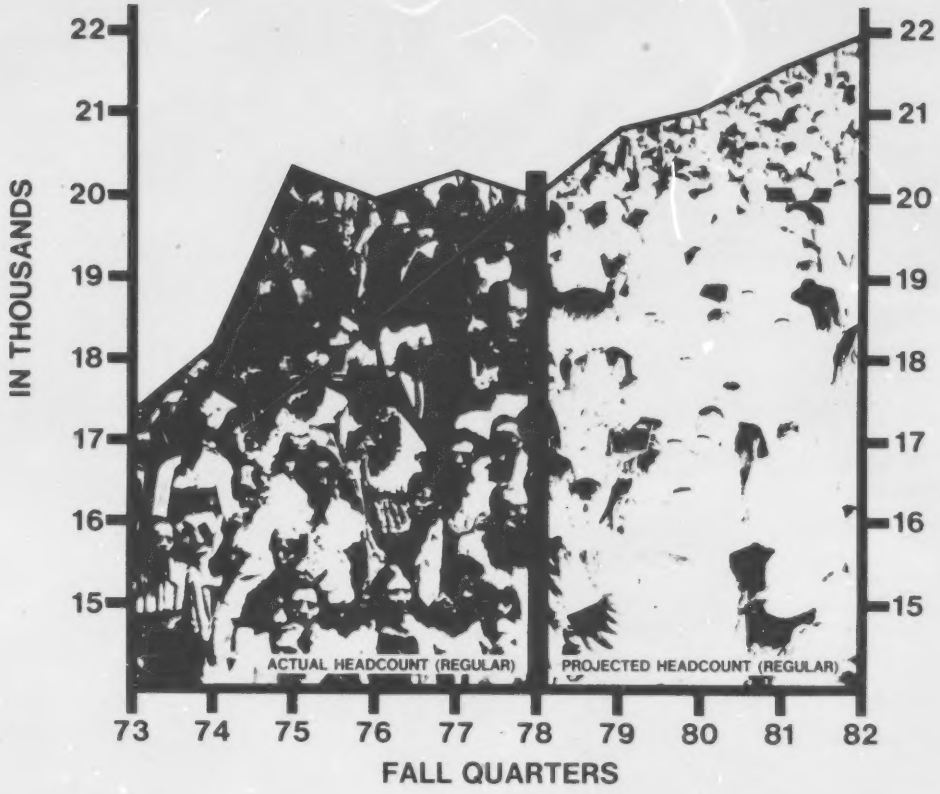
Actual and Projected Headcount Enrollment
Fall Quarters, 1973 - 1982



Fall Quarter	Headcount (Regular)	Headcount (incl.Special Studies)	Percent Growth in Headcount	Quarter Credit Hours (Regular)	Avg. Stu. Hour Load
Projected:					
1982	21,966	22,601*	2.0%	208,677	9.5
1981	21,535	22,157*	2.0%	202,429	9.4
1980	21,113	21,723*	1.9%	196,351	9.3
1979	20,725	21,323*	2.0%	194,815	9.4
1978	20,319	20,906*	0.5%	193,026	9.5
Actual:					
1978	20,021	--	-1.0%	189,610	9.5
1977	20,223	20,686	3.1%	194,922	9.5
1976	19,607	20,283	-3.4%	188,889	9.6
1975	20,290	21,075	12.0%	196,995	9.7
1974	18,116	18,902	4.5%	173,955	9.6
1973	17,341	18,553	3.5%	170,873	9.9

* Special Studies transferred to Public Service Division effective with FY 1979, and these numbers which include Special Studies are no longer applicable

NOTE: Projected enrollments are official projections as of February, 1978, subject to revisions annually. For a detailed explanation of enrollment projections, see Pounds, H. R. and Collins, D., 1978-82 Enrollment Projections for the University System of Georgia, Regents of the University System of Georgia, July, 1978, and Salley, C. D., Enrollment Forecasting at GSU: The Budget Formula Perspective, Institutional Research Report No. 78-13, January, 1978.

GEORGIA STATE UNIVERSITY
Equivalent Full-Time Enrollment
Fall Quarters, 1974-1978

	1974	1975	1976	1977	1978
Actual Headcount Enrollment (Regular) (Includes 260 ESL Students in 1977)	18,116	20,290	19,607	20,223	20,021
Equivalent Full-Time Students (Regents' Formula)	10,648	12,066	11,615	11,817	11,245
Equivalent Full-Time Students (Southern Association of Colleges & Schools' Formula)	15,077	16,477	16,197	16,343	15,915

Board of Regents' Formula:

Total credit hours divided by 16 2/3 (No distinction made between undergraduate and graduate level).

Southern Association's Formula:

1. Undergraduate students taking 12 or more hours or in the case of graduate students whatever the college or university considers as a full-time load (in this case 8 hours) is a full-time student.
2. The total hours carried by the part-time undergraduate students are divided by 12 and the total hours carried by part-time graduate students are divided by 8 to arrive at an equivalent full-time student.
3. The sum of (1) and (2) equals the total equivalent full-time students.

* Freshmen who completed a minimum of 40 quarter credit hours.

** Freshmen who completed a minimum of 25 quarter credit hours.

Key: Beg = Entering Freshman Group Statistics at the beginning of fall quarter.

End = End of Freshman Year Group Statistics at the end of either 25 or 40 quarter quarter credit hours.

N/A = The 1967-1969 editions of Normative Data reported the Verbal and Mathematics scores of the SAT as total scores. Analysis of previous data revealed that the Total SAT could be used for predicting freshman grades without reducing the predictive efficiency of the test. However, in 1970, the Normative Data editions began reporting separate SAT scores and no totals. For comparative purposes and for convenience, the Verbal and Mathematics scores have been totaled.

GEORGIA STATE UNIVERSITY
An Explanation for the Changing Pattern of Student Grades

The proportion of "A" grades at Georgia State University has been increasing for a number of years, following the national trend in higher education. During this same period substantial changes in program enrollments and curricula also have been evident at the university. A series of grade studies (using controls for student aptitude, program of study and longitudinal trend) found little evidence of systematic grade inflation on an individual course basis, but found definite differences in grades assigned by different disciplines. These findings indicate that generally the proportion of "A" grades has increased as a result of the change in course mix rather than a change in grading standards within courses.

An attitude survey of the Georgia State University faculty gave further insight into grading practices, and the highlights of the survey results are provided below.

- Faculty opinions about grading are strongly associated with academic discipline.
- Faculty in those disciplines which emphasize factual and cumulative course content tend to feel that grades in their discipline are lower than those in other disciplines, to emphasize written tests to evaluate students, and express confidence in the letter-based grading system.
- Faculty members in fine arts, education, and the health professions tend to have less confidence in the conventional grading system, hold that a "B" grade indicates average performance, and also use nonquantified factors--such as student attitude and effort--in assigning grades.
- The faculty with high seniority status tend to have strong and rigorous opinions of grading.
- Faculty members are very much aware of the differences in student grades assigned by different disciplines.

GEORGIA STATE UNIVERSITY
Student Organizations

Georgia State University offers a wide range of services and facilities to promote student interests and development. The University community consists of individuals of various ages, backgrounds, and interests, and the administration, faculty, and students work toward providing organizations and services aimed at these individual interests and needs. The Dean of Students' staff is particularly open to serving individual students who wish to organize groups with many interests including professional, social, cultural, religious, political, recreational, educational, service-oriented, honorary, theatrical, etc. The possibilities of student organizations are limited only to the individual student's needs and interests.

The Student Government Association is the official governing body and the official collective voice of all Georgia State University students. This group is representative of the needs of the University community and encourages participation in both time and ideas. The Student Government Association sponsors many groups on campus, including those involved with academic improvement, legal assistance, student services and welfare, entertainment, films, student activities, external affairs, internal operations, etc.

The student media consist of a campus newspaper, the *SIGNAL*, which is printed on a regular basis and informs the community of news and events at Georgia State University; an educationally-licensed FM radio station, WRAS, which broadcasts 24 hours daily; the Georgia State University yearbook, the *RAMPWAY*, recording the school year's student life; and the *GEORGIA STATE UNIVERSITY REVIEW*, a publication of Georgia State University literary, artistic, and photographic achievements.

The Interfraternity Council and the Intersorority Council serve as self-governing bodies representative of the campus fraternities and sororities, pooling ideas and coordinating several joint activities during the academic year.

The Intramural Council, an organization of students which formulates the rules, schedules, and policies pertaining to various intramural athletic events, serves the recreational and competitive interests of the student body.

There are over 100 student organizations. The categorical breakdown is as follows:

Educational--10
Social--19
(Fraternities--11, Sororities--8)
Professional--19
Recreational Groups--8
Religious Groups--9
Service and Social--11
Special Interest and Political--12
Cultural--1
Drama--1
Student Publications--3
Student Broadcasting--1
Student Government Association
Intramural Council
Honor Societies--14

Information about the groups is available in the student handbook, *ON CAMPUS*, and from the Office of the Dean of Students.

* Full-time teachers are those faculty who are approved by the Board of Regents in regular teaching positions; who do not have administrative or research job titles; and who are at least .75 EFT. Part-time faculty are defined the same as full-time teachers, except that they are less than .75 EFT. Chairmen are included under academic administrators. These figures do not include individuals appointed on a per course, per quarter basis.

** Includes M.D., J.D., and Ed.S. degrees

Alumni

GEORGIA STATE UNIVERSITY

ALUMNI ASSOCIATION

The Georgia State University Alumni Association is an active, viable organization which was incorporated in 1963 to "promote, aid, encourage, perpetuate, and develop the aims and objectives of Georgia State University." To accomplish this end, the Association sponsors a variety of programs that fall into five major categories: alumni giving, university promotion, student/young alumni relations, alumni personal and professional development and alumni activities.

Alumni programs and services are defined by a 35-member volunteer Board of Directors. Specific projects and programs are carried out by these Board members with the assistance of other alumni volunteers and the Alumni Office staff. A tabloid newspaper is published six times a year and mailed to all alumni of record to keep them informed of developments at the University, and to provide them with news of other alumni.

The Alumni Association serves the University by (a) providing monies for scholarships and grants for students, (b) recognizing outstanding faculty through distinguished professor awards, (c) giving financial aid to various university programs, (d) representing the university's interests on a local, regional, and statewide basis, (e) recommending outstanding students for admission, and (f) providing leadership for special programs and activities. The Association, in turn, serves its members through various activities designed for their benefit, education, and enjoyment. Alumni tours, continuing education programs, library privileges, recreation activities and an annual Homecoming celebration are but a few of the activities and services provided for alumni.

The Association's Career Consultation Service is designed to provide current students with up-to-date information about possible jobs or careers while increasing their awareness of the Alumni Association. The program, highly rated by its users, enables a student to review a list of alumni volunteers in careers such as accounting, banking, retailing, data processing, social services, art, commercial music, radio broadcasting, and many others, and to choose the counselor he or she wishes to visit. The Alumni Office maintains current lists of volunteers, facilitates the visits, and provides an on-going evaluation of the results of these contacts.

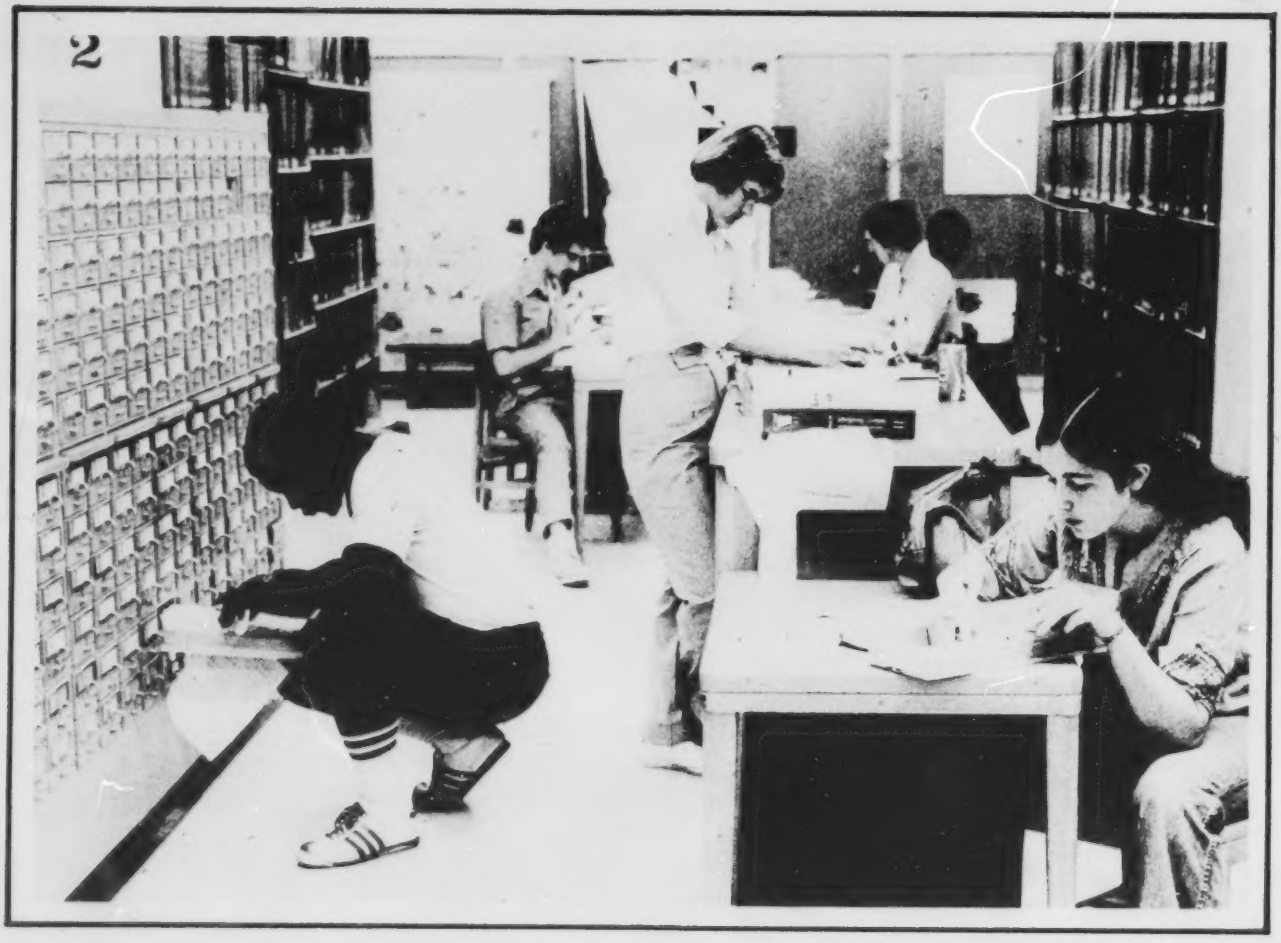
Library



GEORGIA STATE UNIVERSITY
Library

The William Russell Pullen Library is a six-story structure located near the geographic center of the campus. Construction of the present Library building was completed in 1969. The ground level houses parking facilities while the upper five levels provide a shelf capacity of 700,000 volumes and a seating capacity of 2,200. There is an open stack arrangement with color-coded graphics posted at strategic points to aid the patron in locating the materials needed.

The staff of the Library is composed of 90 full-time and 65 part-time employees. Approximately 30 percent of the full-time staff are professional librarians holding faculty rank with appropriate graduate degrees in Library Science from accredited library schools.

Special library facilities include: rare book room, listening room, microform reading room, graduate and faculty lounges, graduate lockers, eight student conference rooms, and twelve dissertation study rooms.

The Library has automated book order and circulation systems and holds membership in the Southeastern Library Network which provides an on-line automated cataloging service. Library statistics are provided below.

GEORGIA STATE UNIVERSITY
Profile of Library Users

A survey was recently conducted of users of the William Russell Pullen Library, Georgia State University. There were 6,406 questionnaires distributed during a sixteen-day period to a random sample, stratified by date and time, with a response rate of fifty-two percent. The survey instrument was designed to obtain answers to four basic questions: Who is using the library? How often do respondents use the library? How do the respondents rate various collections and services of the library? How is the library used throughout the day and week?

Highlights of the library survey are provided below.

- Eighty-nine percent of the library users are affiliated with Georgia State University.
- Students from local colleges and some general public users account for eleven percent of library constituencies.
- Students from the Atlanta University Center are almost half of the non-Georgia State University users.
- About half of the students rated the library services and collections good, while an additional quarter of those surveyed gave an excellent rating. A majority of the faculty also gave a good rating, although fewer rated the collections as excellent.
- Over eighty percent of the respondents say they use the library at least once a week. One-third use the library daily.
- The library is used primarily by individuals living in outlying areas, reflecting the outlying residence pattern of Georgia State University students. There is considerable use of the library at all times of the day, throughout the week.

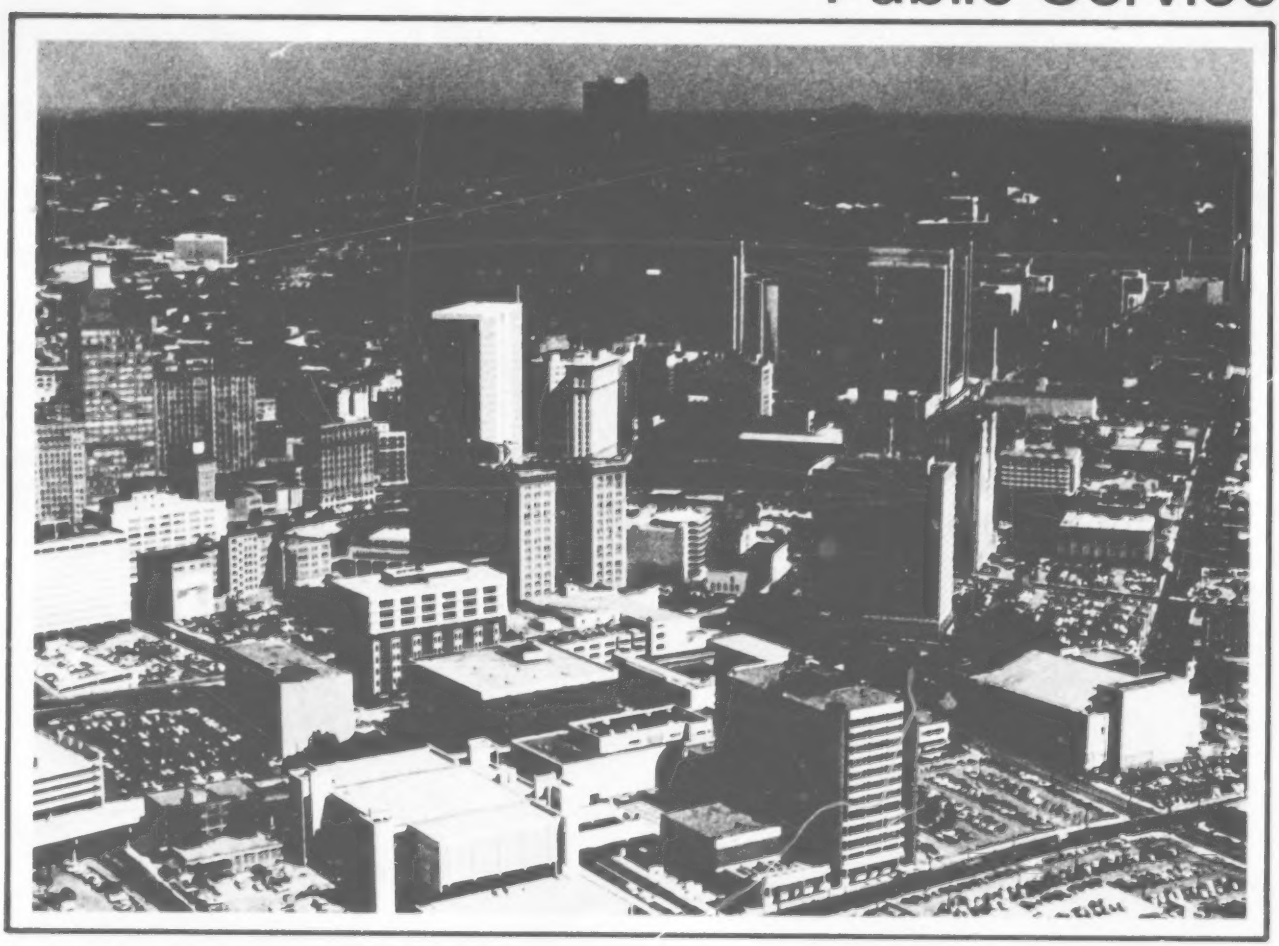
Urban Life Center Concept & Public Service



GEORGIA STATE UNIVERSITY

THE URBAN LIFE CENTER

The Urban Life Center was established in 1968 as an essential element in the urban university concept fostered at Georgia State University. The overall purpose of the Center is to marshal academic, governmental, professional, and public resources, bringing them to bear on the problems of our urban society. Drawing upon these resources, the Center creates and conducts courses of instruction, action-oriented research, and public service programs coping with specific urban problems and contributing to the betterment of the urban environment. Vital contributions to Urban Life Center programs are made by faculty members of all the colleges composing Georgia State University: Allied Health Sciences, Arts and Sciences, Business Administration, Education, General Studies, and the degree/credit arm of the Center, the College of Urban Life.

Service components of the Center include the following:

The Division of Public Service develops, coordinates, and conducts noncredit information and training seminars, workshops, conferences, and short courses designed to assist governmental-administrative-service agencies and community groups in dealing with urban problems and to aid them in planning. These public service programs have the underlying objective of bringing the public, the government, and the academic community together in a spirit of cooperation and open communication.

The Business Information Center is a University System of Georgia service function headquartered at the Urban Life Center. Its purpose is to provide a means by which all business and industrial firms in Georgia can obtain assistance from the various technical and management resources spread throughout the University System.

The Atlanta Urban Corps develops and administers an internship program that provides service-learning experiences for college students. In this program, young men and women from colleges across the nation participate directly in the day-by-day operation of public agencies in the Atlanta area. While doing work useful to the administrative and service agencies--and getting paid for this work--the students acquire firsthand knowledge of how these agencies actually function. This Urban Corps is one of the largest in the nation, providing internships for students from 90 colleges and universities.

The Urban Life Associates is the citizens' advisory board to the Urban Life Center. It serves as a direct channel for community input into the programs and policies of the Center. A diverse group of more than 200 citizens from neighborhoods throughout metropolitan Atlanta, the Associates initiate, participate in, coordinate, and make recommendations concerning all activities of the Urban Life Center.

The Inter-University Urban Cooperative is responsible for communication and coordination between the Urban Life Center and Georgia's many colleges and universities, public and private, concerning joint projects in urban studies, urban research, and community service.

An Urban Life Center Budget, a special allocation of funds by the Board of Regents, is administered and managed as part of the University's Urban Life Center concept. These funds are used to support faculty research into the myriad problems bearing on the urban environment, and They are also used to finance the continuing education conferences and seminars which attack these problems. Last year 62 such projects were financed from this budget.

GEORGIA STATE UNIVERSITY

COMPUTER CENTER

The Georgia State University Computer Center, which is under the administration of the Vice President for Academic Services, was founded in 1959 and today occupies the ground floor and part of the third floor of the Business Administration Building. Two UNIVAC Series 70/7's, an INTERDATA 8/32 and an IBM 1800 are available to users in the University community--faculty, staff, and students. The two 70/7's operate essentially as independent systems, but with an INTERDATA 8/32 as a "front end" processor for both systems, to handle the communication access for terminals, channeling jobs to the proper computer. The IBM 1800, housed in Kell Hall, is used to monitor and control experiments in psychological research.

The computers in the Center are used for administrative work of the University, for faculty and student research, and extensively for instructional purposes. Users are able to access the computing facilities of the two UNIVAC 70/7's through 93 communication lines. There are 23 terminals in Room 107 Business Administration Building and 11 in Room 229 General Classroom Building which are primarily, but not exclusively, for students. Terminals are also located in various administrative and faculty offices on campus. During a typical quarter, over 3000 students make use of the computer in their classwork, developing their problem-solving skills either by writing their own programs or by making use of the large library of programs available on the Systems. A CALCOMP plotter and Tektronix terminal, which produces on-line graphic display of data, add yet another dimension to the Center's data processing capabilities.

Computer Center personnel present instructional workshops in the classroom, additional training is provided through computer-assisted instruction, and consultants are available to assist users on an individual basis. Short courses on computer-oriented topics are offered through the Division of Public Service in an effort to maximize use of our facilities. Communication with the user is further implemented through a bi-monthly newsletter and through documentation in a six-section User's Guide.

GEORGIA STATE UNIVERSITY

COUNSELING CENTER

The services of the Counseling Center reflect the concern of the University for intellectual, personal, and social needs of all students. Beyond providing remedial services for students in crisis, the program is regularly involved in preventive and developmental outreach services. These services are planned either to prepare students so they can more effectively use the University environment or to assist the University community to change so that the developmental experiences that a student needs are more readily available.

The Counseling Center is accredited by the International Association of Counseling Centers. A research monograph has been published to report studies measuring effectiveness of counseling services.

The functions of the Counseling Center are divided into five operational areas:

Counseling. A representative cross-section of the student body seeks individual counseling for vocational, educational and emotional problems. Personal growth, anxiety reduction, communication skills, vocational development, grade-watching, marriage and family are titles descriptive of ongoing counseling services.

Outreach. Workshops for faculty and staff are designed to help them in their work with students. Skill training groups are offered both to students at the University and to the Atlanta community at large. Workshops such as couples communication programs, "Assertive Training," "Your Next Step," "Conflict Resolution," and "Study Skills Circus" have become a continuing effort.

Testing and Research. During 1977-78, 31,846 tests were administered to 20,782 individuals encompassing the Institutional Testing Program for admission, placement, and evaluation; individual counseling; and national testing activities for the Psychological Corporation and Educational Testing Service. The Testing Division provided an extensive test scoring and analysis service, faculty evaluation service, research/attitude scale summary service, and various specialized automated scoring programs for the University community. A total of 233,608 forms during 1977-78 was processed, an increase of 67 percent over the previous year.

Learning Resources Laboratory. Programs meet needs of students who have deficiencies in fundamental learning skills and help advanced students become more effective in their study technique. Faculty consultations assist in identifying and alleviating students' learning difficulties.

Internship and Practicum. Doctoral students in psychology and counseling fulfill their clinical internship requirements under supervision. Advanced Doctoral practicum experiences are offered to selected Georgia State University students. Para-professionals are given supervised experience in the Center on an individual basis.

GEORGIA STATE UNIVERSITY

OTHER CENTERS, CHAIRS AND INSTITUTES

CENTERS

Atlanta Area Small Business Development Center (College of Business Administration, 1978)

Assists the development of new business firms and promotes growth of existing small businesses.

Center for Business and Economic Education (College of Business Administration, 1963)

Designed to expand and improve the teaching and learning of economics at all levels from kindergarten through graduate school and beyond.

Center for Educational Research (College of Education, 1977)

Serves as a resource for faculty, students, and community agencies conducting research, assists in seeking funds for these activities, and also carries out some research projects of its own.

Center for Gerontology (College of Arts and Sciences, 1978)

Designed to coordinate throughout the University the development and implementation of instructional programs, research activities, training efforts, and community service in the area of aging.

Center for Industrial Relations (College of Business Administration, 1978)

Designed to relate fully to the practitioner community through research, technical assistance and continuing education.

Center for Insurance Research (College of Business Administration, 1958)

An integral part of the Department of Insurance, organized to plan, develop and execute research for the insurance program at Georgia State University. It was established with an initial grant from the insurance industry and now receives support from public and private sources, with private support coming through Educational Foundation, Inc.

Center for Professional Education (College of Business Administration, 1970)

Designed to provide an array of management development programs, conferences, and seminars covering topics of current interest and relevance to business, government, and other organizations.

Center for Urban Research and Service (College of Urban Life, 1978)

Concentrates the resources and skills of the University upon the broad spectrum of urban affairs by involving faculty and students in interdisciplinary, urban-related research and service programs.

CHAIRS

Chair of Private Enterprise (College of Business Administration, 1963)

Designed to provide teachers and students with a better understanding of, and more complete appreciation for our system of private enterprise.

Fuller E. Callaway Chair in Business Administration (College of Business Administration, 1973)

A chair awarded to the College of Business Administration for a distinguished professor.

Fuller E. Callaway Chair in Education (College of Education, 1968)

A chair awarded to the College of Education for a distinguished professor.

CHAIRS (continued)

Fuller E. Callaway Chair in English, Language and Literature (College of Arts and Sciences, 1969)

A chair awarded to the College of Arts and Sciences for a distinguished professor.

Mills B. Lane Chair of Banking and Finance (College of Business Administration, 1968)

Established to insure a high-quality financial education program at Georgia State University.

INSTITUTES

Institute of Governmental Administration (1972)

Established to facilitate the University's response to the growing needs and problems of the public sector. The Master of Governmental Administration degree is offered. The Institute also develops and coordinates a variety of public service activities designed to serve administrators in public agencies.

Institute of Health Administration (College of Business Administration, 1952)

Formed in recognition of the increasing importance of the administration of health care facilities and agencies in modern society and the increasing importance of higher education for professionals and practitioners in the field.

Institute of International Business (College of Business Administration, 1964)

To prepare graduate students for careers dealing with the corporate phases and teaching of International Business.

Georgia World Congress Institute (College of Business Administration, 1977)

The Georgia World Congress Institute provides management development and other continuing education programs in the area of international business, frequently in conjunction with the Georgia World Congress Center. It also provides research, technical, language and statistical services in international business.

National Special Media Institutes (NSMI) (College of Education, 1971)

These institutes teach educational administrators, specialists, and classroom teachers to apply a systematic instructional developmental model in solving instructional problems.

The Career Opportunities Program (COP) (College of Education, 1970)

Developed through HEW (1) to provide teachers who can better relate to inner-city children and their particular learning problems; and (2) to upgrade the economic and educational levels of practicing teacher-aides and teacher assistants in inner-city schools.

The Georgia State University Follow Through Program (College of Education, 1971)

A diagnostic program which focuses on the interactions of parent with child and teacher with child. The program is a cooperative process between the University and each local school district.

The Teacher Corps Program (College of Education, 1971)

A consortium of eight Atlanta area higher education institutions developing a program which is characterized by modular instruction to create more competent teachers. The program brings beginning juniors in Early Childhood and Elementary concentrations through the baccalaureate degree and into graduate level work.
